REGARDING: CALIFORNIA PROPOSITION 65 INFORMATION

Dear Valued Customer,

The California Safe Drinking Water & Toxic Enforcement Act of 1986, commonly referred to as California Proposition 65, requires manufacturers to provide customers with notification about chemicals in the products they purchase. Reliance Sheet and Strip Co. (RSS) complies with this requirement by providing the following in regards to its steel products.

Steel sold by RSS contain chemicals listed by the California Safe Drinking Water & Toxic Enforcement Act of 1986 (Prop 65). Products distributed by RSS can expose you to chemicals including nickel, which is known to the State of California to cause cancer, and hexavalent chromium from welding fumes, which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

RSS also supplies chemical information for each product from its steel producing supplier's Safety Data Sheets (SDS), which are readily available to anyone upon request.

Information regarding chemical composition on provided SDS is representative of RSS' entire range of products and not a single grade or order.

If you have any questions or concerns regarding this notice, please contact your sales representative.

Sincerely,

Reliance Sheet and Strip Company
